Tel: 905.618.7510

In late December 2017, the Province introduced

**Ontario Regulation 588/17 Asset Management Planning for Municipal Infrastructure**, under the *Infrastructure for Jobs and Prosperity Act*, 2015. The new regulation builds on the Province's 2012 Guide to Asset Management Planning and is the critical next step for advancing evidence-based decision-making.

We are excited that the Province is partnering with us - Asset Management Ontario (AMONTario) - on an initiative that will expand their community of practice work to municipalities across the province. Starting this year, AMONTario will deliver a series of activities, such as group seminars, online forums, peer reviews, and practitioner-led working groups.

Come and be part of the expanding asset management community. Share your knowledge, use AMONTario Resources and be part of a fantastic network. Looking forward to seeing you there and many other events in the future.
